

Beat Heart

Patrick Goble

Early in the morning, once again, I must face the game
Snow covered footprints frozen in my soul, I wish it would rain
Wash the dirt from life's long road, and let me soak in the pain
Let me take it all in, take it to the place where I lay
Tell me brother what must I do to make it go away?
Will I fall into the trap where so many have before me?

I won't last

In a place without the peace of mind you took from me that rainy day we went to see our father's grave

I won't last

In a place without the peace of mind you took from me that rainy day we went to see our father's grave

Yeah!

I won't last

In a place without the peace of mind you took from me that rainy day we went to see our father's grave

I won't last

In a place without the peace of mind you took from me that rainy day we went to see our father's grave
